Dear Mr. N:
Have checked with post office and my mail man about certified mail from md. (or any where else). Nothing! So-o-o-o

Don't let it worry you - I couldn't care less. In police state you have to get used to things like this.

Really, my point in contacting D.A. (mainly) was

protecting my son mainly and incidentally, Garrison (I reckon he's used to protecting himself!)

As you can see from enclosed letter, I have no illusions!

As you have pointed out, certainly, we need "intelligence" But the CIA does seem rather too rough-& I do hope that they have not been using my son. Perhaps it was Bobby Kennedy, as Godfrey said. Perhaps some day we shall find out!! more later.
